She then left the house to go to a butcher shop, leaving the three small children in the kitchen. The flames were discovered shortly after her departure by firemen whose quarters are near by. They went to work at once, but did not know that the infants were in the structure until some time after their charred bodies were found.

#### WAS SUTTON MARRIED?

A New Orleans End Discovered to the Louisville Sensation.

NEW ORLEANS, April 12.—There seems to be a New Orleans end to the Louisville whisky certificate forgery, which at present is somewhat mysterious. A Louisville dispatch says the chief of police received the following dispatch from New Orleans:

"Has A. R. Sutton, who is under arrest in Louisville, charged with whisky forgery, been married? If so, has he a wife living in your city and is he living with her? By answering these questions you will greatly oblige, Fred Baker, room 8, Masonic temple."

An investigation here, however, discloses the fact that Fred Baker is a fictitious individual, but the party who wrote the letter is Fred Deibel, a notary of some prominence and member of the legislature. He would not state his reason for using a fictitious name, nor would he give his reason for seeking the information about Sutton, except to say that he had heard from the chief of police at Louisville if the answer was in the affirmative, he would make public some interesting news. The careful searching of the records at present in the board of health, from 1899 to the present time, fails to disclose any record of the marriage of A. R. Sutton. As far as can be learned, Sutton was never engaged in business on his own account in this city, though he was born and raised here. He occupied clerkships in wholesale tobacco houses.

—of the germ of Consumption, Scrofula, Eczema, etc., by the use of Dr. Williams' Pink Pills for Pale People. It is the only medicine that cures the germ in the blood, and it is the only medicine that cures the germ in the air we breathe.

The odds are in favor of the germ, if our blood is inactive and the blood impure. What is needed is a medicine that cures the germ in the blood, and it is the only medicine that cures the germ in the air we breathe.

We claim for Dr. Williams' Golden Medical Discovery, that it does all this in a way peculiar to itself. It is the development of generations of medical thought—it has stood the test of a quarter of a century of use.

That is why the mothers can give it to their children. It cures the germ in the blood, and it cures the germ in the air we breathe. It is the only medicine that cures the germ in the blood, and it is the only medicine that cures the germ in the air we breathe.

First Decision in the Bering Sea Arbitration

### WON BY THE UNITED STATES

Great Britain Got Back When the Board Declined to Admit the Supplementary Report.

PARIS, April 12.—The court of arbitration on the Bering sea case has decided not to admit for the present the British supplementary report. This is a victory for the American side of the contention on that question. In announcing the decision of the council the president, Baron de Coudres, said that this decision was without prejudice to the right of counsel to introduce the report in pleadings by word or mouth. The president further announced that the tribunal had decided to adjourn the demand of the United States for the rejection of portions of the British counter case.

Sir Charles Russell, of counsel for Great Britain, stated that it had been agreed that the American counsel should first address the court, notwithstanding the fact that Great Britain was the complainant in the proceeding. James C. Carter and Frederick R. Coudert, counsel for the United States, would deliver the opening addresses, and Sir Richard Webster O. Robinson and Sir Charles Russell would follow for Great Britain. E. J. Phelps would then close in behalf of the United States.

#### Carter Begins His Argument

J. C. Carter then proceeded to address the court. He reviewed the history of the sealing industry, and mentioned that Russia had prohibited the slaughter of female seals. He contended that the seals were bestowed by Providence on all mankind. It was the duty of the American government to prevent the extermination of the seals, and therefore the United States had renege the Russian regulations for the protection of the seals and had arrested the Canadian sealers, because it was impossible to allow any nation to destroy indiscriminately the gift of Providence. Mr. Carter read the diplomatic communications which followed the seizure of vessels accused of poaching.

Mr. Carter continued his speech during the afternoon, devoting himself to a review of the negotiations between President Harrison's administration and Great Britain on the subject of seal fisheries. Mr. Carter's address will probably last for a fortnight.

#### TO FILL UP THE MINE

Striking Belgian Miners Would Bury Men Working in a Shaft.

BRUSSELS, April 12.—The striking coal miners in the Borinage district number 8,500. The metal workers, printers, lithographers and woodworkers have struck in several of the suburban factories and the factories are closed in consequence. In the provinces, and especially in the districts of Verviers and Louvain, the strikes are increasing among the working people. Liege has so far been unaffected.

Three hundred miners engaged in the strike perpetrated much wanton damage at Quaregnon, in the province of Hainaut, today. The strikers made an attack upon the sheds about the mouth of a pit and smashed every window in them. There were many men working in the pit who had refused to join the strikers and the mob's fury was directed against them as much as against the owners of the pit. All sorts of rubbish were thrown into the shaft, the intention of the strikers being to imprison the men in the mine. Before the officers arrived at the pit considerable damage had been done. The gendarmes ordered the rioters to disperse and upon their refusal to do so attacked them with the flatirides of their swords. The strikers finally dispersed. Further trouble from the strikers is apprehended and a close watch will be kept upon their actions. Great activity is shown among the labor leaders. All their efforts are now directed to bring about an enormous demonstration against the chamber of deputies for refusing to adopt the bill to establish universal suffrage. The bill was rejected by the chamber despite the fact that the government supported the proposal made by Deputy De Smett that suffrage should be regulated according to the amount of rent paid by men of voting age.

## HIS AFFIDAVIT.

It Will Make People Believe His Wonderful Story.

Subscribed to by One of New York's Most Prominent Justices.

Here Is the Whole Matter Exactly as It Happened.

#### STATE OF NEW YORK.

COUNTY OF WASHINGTON.

Lucien Rodd of Whitehall, New York, being by me duly sworn, deposes and says that some years ago he suffered very greatly with insomnia, nervous prostration and his body was covered with sores, causing him great pain and annoyance. That his head was so covered with sores that he was hardly able to comb or even brush his hair, so great was the pain it occasioned.

That he consulted the local physicians without successful result; that he took quantities of medicine with no benefit whatever; that physicians told him his disease was incurable and he had come to the same conclusion himself and had made up his mind to go to a hospital and await death.

That just about this time he learned about Dr. Greene's Nervura blood and nerve remedy, which he began to use. That this remedy entirely relieved and cured him, healed and dried up his sores, enabled him to sleep soundly and comfortably, and restored him to his ordinary vigor and vitality; in short, made a sound and well man of him so that he was fully able to work at his occupation, and has done so since that time.

That he attributes his recovery to Dr. Greene's Nervura blood and nerve remedy, as it restored him when everybody and

everything else had failed and he had been given over to go to the hospital and die.

Mr. Rodd makes this statement voluntarily and cheerfully out of sincere gratitude for what the remedy has wrought for him.

Subscribed and sworn before me this 15th day of January, A. D. 1905, and I certify the affiant to be a credible and reliable person whose statements may be accepted with confidence and implicitly relied upon, having known him personally for the last twenty-five years, and that I have no interest, direct or indirect, immediate or remote in this matter.
